

A NEW CONCEPT IN
POST BINDERS

THE

Cam-Lock

READY-TO-WRITE POST BINDER

by

Narco

Yes! Ready-to-Write

Here's why the new Narco Cam-Lock* makes your work easier, faster

IT LOOKS LIKE OTHER POST BINDERS

Except that its ultra modern design and construction give it a slimmer, more pleasing appearance. And there is no button, slide or other visible locking mechanism.

BUT! IT WORKS LIKE MAGIC...

When you open the Narco Binder it automatically unlocks, ready to use — ready to write, ready to add sheets, ready to remove sheets. There is nothing to push or pull... nothing to break your fingernails or scratch your desk.

THE COVER IS THE LATCH

An ingenious cam on the hinge, releases the lock when you open the cover. Close the cover and Presto! your Narco Binder is securely locked. You can't inadvertently or accidentally unlock it. The foolproof mechanism is built to last a lifetime. It still worked like new after torture tests including opening and closing the cover 50,000 times.

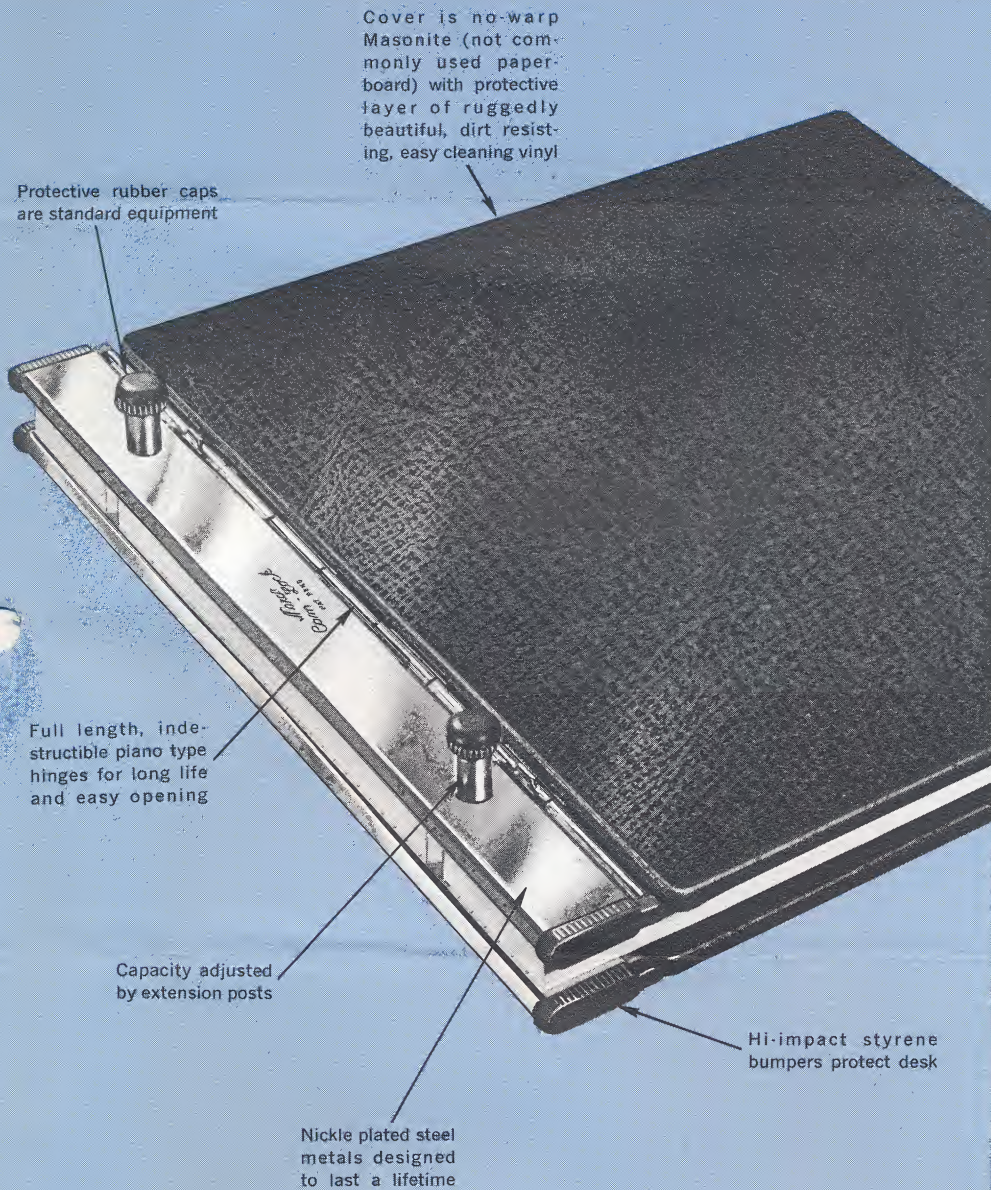

*Patent Pending • Trade Mark

*the
"engineered"
binder*

The Narco CAM-LOCK Post Binder was conceived and developed without the restrictions or inhibitions of existing tooling and concepts. It was designed and engineered as thoroughly and painstakingly as a piece of precision equipment — which it is.

Its sheer beauty, sturdy construction and competitive price make the Narco Binder a worthwhile investment. But the Cam-Lock feature makes it an unbeatable bargain. Once you use a Ready-to-Write CAM-LOCK Post Binder you will never want to go back to the old way.

THE ONLY POST BINDER THAT UNLOCKS AUTOMATICALLY WHEN OPENED!

Sheets lie flatter with Cam-Lock

Whether you want to take just a quick peek or do a day's entries, the CAM-LOCK Post Binder gives you maximum visibility, maximum working area almost the instant you open the cover.

Sheets "hump" with other binders

With other binders the hinge blocks can't spread to release the sheets unless you manually operate the unlocking mechanism. If the blocks don't spread, the sheets "hump".

Easy to add or remove sheets

When binder is in open position sheets may be added or removed from any section without removing cover.

IT'S SO EASY... SO CONVENIENT

- A new concept in binders
- Sheets lie flatter
- Unlocks automatically when opened
- Locks and stays locked when closed
- Nothing to push or pull
- Nothing to break fingernails
- Nothing to scratch desk
- Always ready to write
- Easy to add or remove sheets

AVAILABLE IN THESE SIZES AND STYLES

Available in green, black or tan cover. Binder comes with two wrenches and complete set of posts (two 1" extension posts and two caps). Additional sections may be ordered.

Binder Number	Sheet Size*	Posts		PRICE EACH
		Diameter	C to C	
NCL-7011-B (Black) NCL-7011-G (Green) NCL-7011-T (Tan)	7x11	$\frac{3}{8}$	4 $\frac{1}{4}$	\$7.45
